Dear Colleague:

Salt River Project (SRP) and Old Dominion Electric Cooperative (ODEC) are hosting the 2026 Nuclear Nonoperating Owners Group (NNOG) conference from May 12-15, 2026, at the Renaissance Phoenix Glendale Hotel & Conference Center in Glendale, Arizona.

The NNOG conference provides opportunities to learn about the commercial nuclear industry and the challenges facing non-operating owners. The conference will cover an overview of nuclear industry issues and, after the conference, attendees will have current information on technical and business issues facing non-operating owners of nuclear plants with material that is suitable for those with all levels of industry knowledge. Conference participants will gain an understanding of various topics that are useful in owner oversight and management of nuclear assets. There are no prerequisites or advanced preparation necessary to attend the NNOG conference.

This year's conference features two days of first-class presentations, discussions and a reception on Wednesday evening to promote networking among nuclear colleagues.
